

Air1 is the primary Christian radio station I listen to. While there are other Christian stations that service the Phoenix area, I am better ministered to through the music of Air1. If Air1 is displaced by an LPFM broadcaster, people who listen to Air1 for uplifting music and guidance, etc, would no longer have this available. Air1 serves the public very well, and it would be a great loss if they were no longer able to broadcast due to LPFM programming.
